

CAAS SAR / EASA Part-66 M3 Electrical Fundamentals

Course Description

This course is compliant with the requirements of CAAS SAR / EASA Part-66 and provides participants with a strong foundation in aerospace engineering.

Course Objectives:

- Learn about electricity and how it is generated according to the electron theory
- Able to describe various electrical terminologies
- Understand various electrical components
- Understand AC and DC electrical circuits / power generation and relate differences
- Acquire knowledge on AC and DC generators/motors

Course Duration	B1 / B2	12 Training Days
------------------------	---------	------------------

Maximum Class Size	28 students
---------------------------	-------------

Course Fees <i>(Singapore Dollars per seat)</i>	\$2520
---	--------

SDF Subsidy <i>(For CAAS approved course only, subject to eligibility)</i>	Please refer to SSG's prevailing funding support for employers or self-sponsored individuals
