

CAAS SAR / EASA Part-66 M7 / M7A Maintenance Practices

Course Description

This course is compliant with the requirements of CAAS SAR / EASA Part-66 and provides participants with a strong foundation in aerospace engineering.

Course Objectives:

- Ability to recognise safety precautions in aircraft & workshop
- Understand the importance of standard aircraft and workshop maintenance practices
- Understand engineering drawings, diagram / standards and Electrical Wiring Interconnection System (EWIS)
- Understand riveting, pipes and hoses, spring, bearings, transmissions and control cables
- Understand and apply differences between the various aircraft fasteners
- Learn about various general tools and avionics tools used for maintenance purposes
- Learn about material handling, weight / balance and aircraft handling / storage
- Learn about disassembly, inspection, repair and assembly techniques
- Learn about abnormal events and maintenance procedures

Course Duration	B1	31 Training Days
	B2	21 Training Days
	B1 & B2	32 Training Days

Maximum Class Size	28 students
---------------------------	-------------

Course Fees <i>(Singapore Dollars per seat)</i>	B1	\$5040
	B2	\$3840
	B1 & B2	\$5180

SDF Subsidy <i>(For CAAS approved course only, subject to eligibility)</i>	Please refer to SSG's prevailing funding support for employers or self-sponsored individuals
